

Create a Legacy That Transforms Lives

CHARLES GOODMAN (ARCH '34) changed American architecture with projects such as Hollin Hills and Ronald Reagan Washington National Airport. His wife, Dorothy, shared his love for architecture, art, and design. She supported him throughout his career and volunteered for many causes.

Charles wanted to encourage tomorrow's innovators by including Illinois Institute of Technology in his estate plan. After he passed, Dorothy honored his wishes and added her own legacy by making two planned gifts to Illinois Tech. One gift helps to fund the architectural engineering department, while the other provides the Charles M. Goodman FAIA Scholarship, which will educate generations of students.

“Architecture reflects the social phenomenon. . . We deeply need more offbeat personalities, people with unique interests, more people strong enough to stand unafraid to be themselves.”

– Charles Goodman

Hollin Hills

Benefits of a Bequest:

- Help ensure Illinois Tech's future.
- Leave a legacy of giving back.
- Give without affecting your current cash flow.
- Retain control of your assets during your lifetime.
- You can direct your gift to a particular purpose—check with us to make sure the gift can be used as intended.

If you have named Illinois Tech as a beneficiary in your estate plan through your will, trust, IRA, or retirement plan, please let us know so that we may acknowledge your generosity and include you as a member of our esteemed Gunsaulus Society.

Visit iit.edu/giftplanning to begin learning how you can benefit from these giving methods and more. Contact Stuart Gold, director of gift planning, at sgold@iit.edu or 312.567.5020.
