Faculty/Staff Campaign

When you choose to donate to Illinois Institute of Technology, you help the university to grow over the long term. Faculty and staff play a crucial role in advancing Illinois Tech—providing vital support in efforts to become a leading technological university.

It is because of your generosity and hard work that Illinois Tech is a great place. Our faculty and staff are the backbone of our university. Together we build new programs, strengthen daily operations, and offer meaningful support to students.

Faculty and staff gifts are a way to show your commitment to making Illinois Tech a better place for everyone—for those who study here and for those who work here. And, whether you have been a contributor for years or are making your first gift, know that you are making a difference. Thank you for all that you do!
