

America's Most Trusted Automation Solutions
Provider for over 40 years

The only custom encoder built to withstand even the very harshest of environments.

LEARN HOW THEY WORK

A complete encoder product line from light mill duty to severe duty applications.

Our ability to create custom solutions for your system and fulfill your needs distinguishes us from other automation vendors. Nidec-Avtron pioneered the 'digital front end' retrofit of analog DC drives with digital regulators to improve performance, reduce downtime and increase machine life.

LEARN MORE

Why Choose Avtron Encoders?

Unlike the competition, Avtron SMARTSafe encoder systems are fully protected against short circuits, power-to-output wiring, and output-to-ground faults at every point. Wiring errors won't harm this system!
